

Sticker Tag Installation In 4 Easy Steps!

EACH VEHICLE SHOULD HAVE ONLY ONE TAG. WHEN YOU GET YOUR NEW STICKER TAG, **REMOVE ALL OLD TAGS** TO KEEP YOUR ACCOUNT IN GOOD STANDING AND TO ENSURE YOU RECEIVE THE DISCOUNTED TOLL RATE.

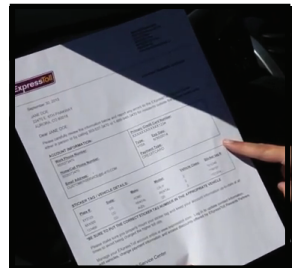

STEP 1:

Make sure you **DO NOT** have old transponders or sticker tags anywhere on the vehicle. Then clean and dry the **INSIDE** of the lower left corner of your windshield.

STEP 2:

View the **'Sticker Tag / Vehicle Details'** on your customer profile letter that was sent with the sticker tag to ensure you place the proper tag in the correct vehicle (for accounts with multiple vehicles only).

STEP 3:

Peel off the top portion sticker tag. **DO NOT** bend the sticker tag. If the tag is bent, the reader chip may be damaged and it will not work properly.

STEP 4:

Secure sticker tag (**TOP STICKER ONLY**) on the **INSIDE** of your windshield in the lower left corner.

Removing your sticker tag

Once removed, the sticker tag **CANNOT** be reused. If you have your windshield replaced, you must request a new sticker tag. If you want to remove your sticker tag from your windshield, peel off, scrape off remaining residue, and then clean the area with an alcohol wipe or windshield cleaner.

Discarding your old transponder

If this sticker tag is replacing an old transponder box, you must return the old transponder box. You can return it at one of the ExpressToll retail outlets. Go to www.expresstoll.com for a list of retail locations. You can also return it in person or mail to: ExpressToll Service Center, 22470 E. 6th Parkway, Suite 110, Aurora, CO 80018.

Online account management

Manage your account online at www.expresstoll.com. Log in to update contact information, add vehicles, change payment information, and access discounts offered through the ExpressToll Rewards Program.
