

# Wyoming License Plate Guide

Follow the steps below to determine how to enter your Wyoming license plate number on the “edit vehicles” page.

Step 1: Plate Design #	Step 2: County Number Or Plate Code	Step 3: Vehicle Type	Step 4: Plate Number
0 9	0 4	T	9 4 7 5

## Step 1: Plate Design

Identify your license plate design in the examples below. Place the 2-digit code of that license plate design as shown in step 1 above.

09 = Grand Tetons & University of Wyoming Design

\*01 = Devils Tower Design

\*Wyoming DMV had discontinued this plate design, although some residents are still using it.

## Step 2: County Number or Plate Code

Identify the plate code below by looking at the first symbol or digit on your license plate. Identify that symbol or digit below and place the corresponding 2-digit code as shown in step 2 above.

### NUMBER

1 = 01	5 = 05	9 = 09	13 = 13	17 = 17	21 = 21
2 = 02	6 = 06	10 = 10	14 = 14	18 = 18	22 = 22
3 = 03	7 = 07	11 = 11	15 = 15	19 = 19	23 = 23
4 = 04	8 = 08	12 = 12	16 = 16	20 = 20	

OR

### LETTER

AP = Apportioned	NG = National Guard
AR = Amateur Radio	PH = Pearl Harbor Survivor
DV = Disabled Veteran	PR = Purple Heart
ET = EMT	PW = Former POW
FF = Firefighter	

## Step 3: Vehicle Type

Identify the type of vehicle and place the corresponding letter as shown in step 3 above.

P = Passenger

T = Truck

M = Motorcycle

C = Commercial Vehicle

## Step 4: Plate Number

Identify the last four characters on your license plate and enter them as shown in step 4 above.
